EXPERIENCE

Fundomate, Remote — Frontend Developer

July 2021 - September 2023

As a frontend developer, my responsibilities included overseeing the UI/UX aspects of an application designed to empower small businesses by enabling real-time financial management through an intuitive dashboard.

- Development of a real-time financial management SPA
- Creation of an administrative control panel for management
- Creation of a universal UI/UX component library in React
- Micro-frontends integration using Single Spa
- Testing of application interfaces and components

SPD Group, Ukraine, Cherkasy — Frontend developer

June 2019 - July 2021

Implemented user interfaces for websites and web-based applications, converting design mockups and wireframes into code for website and web-based application UI.

- UI/UX theme development
- Migration of a legacy codebase
- Improvements and testing of React components
- Integration of React modules into the Drupal CMS

4eck Media, Remote — WordPress / Frontend developer

July 2017 - June 2019

Implemented user interfaces for websites built on the top of WordPress, Laravel, and PrestaShop.

- WordPress and PrestaShop theme development
- Conversion of PSD templated to HTML/CSS
- Migration of a legacy codebase to the Laravel ecosystem
- Creation of JS modules and reusable UI modules

Upwork.com, Remote — WordPress / Frontend developer

June 2015 - July 2017

I have been a freelancer since 2015. During this time, I've successfully completed more than 30 projects, with the majority developed using the WordPress CMS.
