PROFESSIONAL SUMMARY

Results-oriented Senior Frontend Developer with 8+ years of experience. Adept at converting design concepts into scalable and clean code. Skilled in frontend technologies, UI/UX development, and building efficient and intuitive applications. Passionate about staying up-to-date with the latest industry trends and technologies.

EXPERIENCE

Fundomate

6-8 team members, 50+ overall

Senior Frontend Developer

July 2021 - September 2023

Summary:

As a frontend developer, my responsibilities included overseeing the UI/UX aspects of an application designed to empower small businesses by enabling real-time financial management through an intuitive dashboard.

Achievements:

- Successfully developed a real-time financial management dashboard
- Created a customer management dashboard
- Developed a universal UI/UX component library in React
- Integrated micro-frontends using Single Spa
- Conducted testing of application interfaces and components
- Developed a library for onboarding users from third-party resources
- Actively participated in improving CI/CD processes
- Developed an approach for customizing the application based on the brand style

Tools and technologies:

React.js, Typescript, JavaScript, Node.js, SCSS, Storybook, Jest, React Testing library, MobX, Yup, react-hook-form, Micro-frontends, Single SPA, Webpack, Rollup, Smartlook, Cypress, Linter, Prettier, Figma, Zeplin, npm.

SPD Group

6-8 team members, 500+ overall

Middle Frontend Developer

June 2019 - July 2021

Summary:

Implemented user interfaces for websites and web-based applications, converting design mockups and wireframes into code for website and web-based application UI.

Achievements:

- Participated in the development of React application for step-by-step purchase of gift cards
- Integrated React modules into the Drupal CMS
